Keywords:
(dishwasher, pool, etc.)

Show only properties which accept HCVs (Section 8)

Show only properties with accessible units

January 16, 2007

WYOMING, MI – The Property Management Association of West Michigan announces a fast, easy way for residents to find affordable and accessible housing online at www.pmawm.com!

This website is free to all prospective renters seeking a home in West Michigan. People can quickly and easily search for an *available* rental home. The site allows renters to search by Number of Bedrooms, Rent, Location and Keywords. Renters can further refine their search by choosing to view only properties that accept HCVs (Section 8), that have rent based on income and/or have accessible units. With a few keystrokes, renters get a comprehensive list of *available* rental properties in their rent range. Renters can click on a specific property and view property descriptions, photos, amenities, floor plans, satellite maps, applications and leases online.

“We are excited to offer this impressive tool which connects West Michigan residents with our association members.” said PMA of West Michigan’s Executive Director Kathy Vallie.

This powerful, online apartment search was developed by RentLinx, in partnership with PMA of West Michigan, the Property Management Association of Michigan, The Michigan Housing Council, The Michigan Disability Rights Coalition, and the Michigan State Housing Development Authority.

PMA of West Michigan is a local affiliate of the National Apartment Association. Members of PMA of West Michigan include owners, managers, leasing consultants, maintenance staff and other apartment industry professionals. Business Partner members are represented by companies that currently conduct business in the industry or have a desire to increase their business. For more information visit www.pmawm.com.

RentLinx LLC – *The Apartment Multi-List* - is a privately –owned internet marketing company located in Ann Arbor, Michigan. RentLinx powers apartment searches on association, government, community and property manager websites. For more information visit www.RentLinx.com.
